# SUCCESS STORIES

**Christoph**

Vienna Skyline | Danube Tower

"Even though I'm not an artist, painting was a really cool and refreshing experience! Truly relaxing and something different for a change. The painting is already up in my office! 🙌🔥"

**Viktoria B.**

acrylic painting | Hermes Villa

"What I liked most about the Paint Your Souvenir workshop were the technical and historical explanations provided by the artist leading the course. The two hours at Paint Your Souvenir were not only fun but also incredibly educational! The group included both beginners and advanced participants, and support was provided based on skill level. All equipment was available, and participation was extremely easy. I will definitely join another workshop – you get to be creatively active, meet wonderful new people, and take away new knowledge! Highly recommended!"

"The best experience – so well-organized and tailored to our needs. The DIY mug is not only a unique souvenir but also a beautiful reminder of this summer.
